## WHAT TO EXPECT

## Arrivals/Departures

Employees and volunteers follow all policies to ensure safe and secure greetings and departures for all children's programs. BGC Kawarthas will ensure that any child participating in a care program is only released to the child's parent/guardian or an individual listed on the child's authorized pick-up list. A record of the daily attendance for each child received in a registered Club program shows the time of arrival and departure of each child or if a child is absent.

Where a parent/guardian provides written instructions for the release of their child, the child must be at least 10 years of age from a Club program without supervision. The parent/guardian will provide written instructions that will include the specified time the child will be released. The parent/guardian is aware that the Club program is no longer responsible for that child upon their dismissal.

Where a child does not arrive in care as expected or is not picked up as expected, employees must follow the safe arrival and dismissal procedures as set out in the procedure.

For the full Recording Attendance, Safe Arrival, Greetings and Departure of Participants Policy refer to [Appendix 8](#)

## Custody Agreements

Please be advised, in situations where custodial concerns are occurring, the centre may not refuse the release of a child to a parent/guardian at the request of the other parent. We must have an up to date legal document on premise and follow the specifically outlined custodial arrangements.

## Field Trips & Off-Site Activities

Occasionally the centre may plan an outing for the children. A letter and permission form will go home in advance.

## Outside Play Time

The Child Care Early Years Act stipulates that children participate in outdoor activities for a minimum of two hours/day for full day programs and 1/2 hour/day for A/S programs weather permitting. For the safety of the children, in extreme weather conditions, such as very cold or very hot, the time outdoors will be reduced or omitted at the discretion of the Supervisor.

## APPENDIX 2

### Prohibited Practices (as outlined by the CCEYA)

No licensee shall permit, with respect to a child receiving child care at a child care centre it operates or at a premise where it oversees the provision of child care,

- (a) corporal punishment of the child;
- (b) physical restraint of the child, such as confining the child to a high chair, car seat, stroller or other device for the purposes of discipline or in lieu of supervision, unless the physical restraint is for the purpose of preventing a child from hurting himself, herself or someone else, and is used only as a last resort and only until the risk of injury is no longer imminent;
- (c) locking the exits of the child care centre or home child care premises for the purpose of confining the child, or confining the child in an area or room without adult supervision, unless such confinement occurs during an emergency and is required as part of the licensee's emergency management policies and procedures;
- (d) use of harsh or degrading measures or threats or use of derogatory language directed at or used in the presence of a child that would humiliate, shame or frighten the child or undermine his or her self-respect, dignity or self-worth;
- (e) depriving the child of basic needs including food, drink, shelter, sleep, toilet use, clothing or bedding;  
or
- (f) inflicting any bodily harm on children including making children eat or drink against their will.

The Early Childhood Educators role in behaviour management is to maintain a positive environment while modelling appropriate behaviours and explaining reasons for rules and boundaries. By doing this we hope to promote and encourage positive behaviours and assist in achieving a sense of self-discipline while fostering self-esteem.

The Ministry of Education provides strict guidelines to discipline. If the child care staff must implement behaviour management strategies the following guidelines will be followed.

- 1) In a calm, clear and firm voice inform the child that what they are doing is not acceptable and direct them to stop. Offer alternatives to the behaviour. Ensure all staff are consistent in enforcing the discipline procedure.
- 2) **Volunteers** are not expected to take on a major role in disciplining participants. If youth (s) do not respond to your low-key message then consult the program staff who will deal with the matter according to procedure
- 3) If the behaviour continues, then the child should be informed again that the behaviour is not acceptable and redirect the child to another positive alternate activity. Inform the child that if the behaviours do not stop, they will be removed from the activity for a "Time away" period. This should be stated clearly, so that the child understands exactly what will happen if they does not comply. Explain what a time away is; the child may not know what you mean by TIMEOUT.

Don't fall into the "attention seeking game". A friendly and caring relationship with staff helps the child feel valued and secure, and the child doesn't have to work so hard at making their feelings known.

- 4) "Time away" procedures should be implemented in such a way that they are not embarrassing to the child, and the time frame should be only as long as it takes for the child to return to the activity and interact within the rules.
- 5) In the case where the child returns to the activity but continues to misbehave, consult with your supervisor

- 6) The Supervisor may decide to speak with the child and/or remove him/her from the activity. Removal must be performed in a safe and secure manner for all involved individuals. The Supervisor or designate should also consult with the child and/or the parents/legal guardians, as to why they is misbehaving, i.e. the child may just be very excited about the activity and then gets into trouble and may need to be calmed down. Some other reasons that may cause a child to act out are frustration, too many challenges, too many demands, too little space, and not understanding the instructions, and fatigue.

Remember to have staff use “positive reinforcement” when the child does the activity properly. Every child is unique and may respond differently to direction. Redirection should be implemented so that the child’s dignity and self-worth is enhanced not hurt. Remember that new children will need a sensitive and flexible settling-in period. This starts with the relationship you build with the child and the child’s family in recognizing that children cope with change and new experiences differently. When you see a child acting out, they may not feel comfortable in the group or know the rules.

Parents/legal guardians should always be informed. When there is a feeling of mutual respect and interest in assisting with improving the child’s behaviour, parents then feel supported.

- 7) In cases where the misbehaviour endangers the client, others or the physical/emotional environment of the club the leader should firmly limit the behaviour to ensure safety is maintained.

**REFERENCE:** HIGH FIVE # 2.4.1 & # 2.5.1  
CCEYA 137/15

#### **RATIONALE**

To protect the safety and security of all participants by ensuring that each participant registered for a program is accounted for during the program's hours of operation. To ensure there is a process for safe arrivals, greetings and departures of participants and that parents/guardians are informed of these procedures. To protect the safety of participants by ensuring that program employees note each participant's arrival, that they are alerted to the absence of any participant and that they release participants only to authorized individuals.

#### **POLICY**

Employees and volunteers follow all policies to ensure safe and secure greetings and departures for all children's programs. BGC Kawarthas will ensure that any child participating in a care program is only released to the child's parent/guardian or an individual listed on the child's authorized pick-up list. A record of the daily attendance for each participant received in a registered Club program shows the time of arrival and departure of each participant or if a participant is absent.

Where a parent/guardian provides written instructions for the release of their child, the child must be at least 10 years of age to be released from a Club program without supervision. The parent/guardian will provide written instructions that will include the specified time the child will be released. The parent/guardian is aware that the Club program is no longer responsible for that child upon their dismissal.

Where a participant does not arrive in care as expected or is not picked up as expected, employees must follow the safe arrival and dismissal procedures as set out in the procedure below.

#### **PROCEDURE**

Designated employees will record daily attendance for each participant registered program to confirm their presence before the safe arrival call.

##### **Employee Qualifications**

1. Greet parent/guardian and participants in a friendly manner

2. If a parent/guardian indicate that someone other than the child's parent/guardian will be picking up, the employee must confirm that the person is listed on the child's authorized to pick up list, where the individual is not listed, ask the parent/guardian to provide authorization for pick up and update their authorized to pick up list on their registration form.

2. Once the participant's absence has been confirmed, the employee shall document the participant's absence on the attendance record/sign-in/out form. For licensed child care

programs any additional information about the child's absence will be documented in the daily written record.

3. For after school programs operating in schools. The employee will communicate with the school when a participant has not arrived to program. If the school confirms the child's absence or change to the participant's schedule the employee will document the participant's absence on the attendance record/sign-in/out form. 3. Record the departure time of each participant exiting the program.
4. Sign out participants on the evening shuttle using the list provided by the shuttle driver. Participants are not to be signed out before they are lined up and ready to leave on the Club vehicle.

The form will state the authorized individual's name and that they have been approved to pick-up the noted participant. The authorized pick-up individual will be instructed to provide the form to the program employee at the location shared. Upon review of the form, the program employee can release the participant to the authorized individual.

### **Program Closed and/or Participant has not Been Picked up as Expected**

1. Where a parent/guardian or authorized individual who was supposed to pick up a participant from care and has not arrived by program closing time, an employee shall ensure that the participant is supervised and provided an activity, while they await their pick-up.
2. An employee will proceed with calling the parent/guardian to advise that the child is still in care and inquire about pick-up time. In the case where the person picking up the child is an authorized individual rather than the parent/guardian, the employee shall contact the parent/guardian first and then proceed to contact the authorized individual responsible for pick if unable to reach the parent/guardian.
3. If the employee is unable to reach the parent/guardian or authorized individual who was responsible for picking up the child, the employee shall contact the participant's emergency contacts on file.
4. Where the employee is unable to reach the parent/guardian or any other authorized individual listed on the participant's file (e.g., the emergency contacts) 60 minutes after the closing time the employee shall proceed with contacting the local Children's Aid Society

(CAS) Lindsay CAS: 705-324-3594, PTBO CAS: 705-743-9751 Employee's shall follow the CAS's direction with respect to next steps.

### **Dismissing a Participant from Care Without Supervision**

1. Where a parent/guardian has provided written authorization for their child to be released from care without supervision, an employee at the Club must be responsible for dismissing the child from care.
2. Prior to dismissing the participant from care, the employee shall review the written instructions for release provided by the parent/guardian and release the participant at the time set out in the written instructions. ### **Attendance Documentation:**

- Attendance records include information to support the participant's safety and meets compliance requirements under the CCEYA and HIGH FIVE.
- Appropriate program attendance forms are used to record each participant's name, the date, an indication of whether a participant was present, absent or late and any specific comments with regard to a participant's attendance (e.g., a note to indicate that parents/guardians verbally advised the program that their child would be absent or late on a particular date). Each form is labelled and includes the program name and location.
- Employees are trained on attendance procedures that include when to conduct attendance, recording attendance accurately, neatness, confidentiality, secure storage of forms and what to do if a participant is late or absent.
- A routine is established whereby attendance is taken within the first 10 minutes of the program's scheduled start time. Attendance is also taken regularly; whenever there is a break in the program, after a significant transition within a program (e.g., as participants board a bus to return to their program site during a field trip).
- Program employees will have access to children's records should they need a parent/guardian or emergency contact phone number to follow up on an absent participant (e.g., participant information is available through Active Net or if off-site, registration forms are kept in a program binder carried by the program employee).
- After daily attendance, forms are stored in a designated spot that ensures confidentiality and accessibility should they require them.
- Supervisors conduct random spot checks to monitor adherence to the policy and procedures.
